3) Town Hall Madhupur

The Design is defective as a long shape with terraced alcove at back and with bare solid portions of side & ~~fro~~ end walls predominating – will be aesthetically imperfect

There are no side or longitudinal Sections drawn

The design therefore requires considerable modification or entire revision

The foundation alone may however be laid on the pier to the right of the front door of the hall

13) Put to Secretary Board for consideration

14) Among the sources for meeting the cost of the Town Hall, shown in the Estimate as approved by the Board on 11-12-31, a sum of Rs 2000 has been shown as Govt Grant. As no grant has been given by Govt for this purpose, it has been omitted in the abstract Estimate now put up.

15) Draft revised, omitting all reference to the source for meeting the cost of the work. Since the proposals were made so far back as Dec 1931, it seems better to call for proposals now as to how much work is proposed to be financed. In this view para 2 of the order is added
